Career Objective

Entry-level Software Engineer with hands-on experience developing full-stack web applications using React.js, Node.js, Express.js, MongoDB, and MySQL. Experienced in building RESTful APIs, database-driven applications, responsive user interfaces, and end-to-end application workflows through academic projects and a full-stack development internship. Strong problem-solving skills with a foundation in Java, C++, Data Structures and Algorithms, along with additional exposure to NLP and AI-based applications.

Technical Skills

- **Programming Languages:** C++, Java
- **Frontend Development:** HTML, CSS, JavaScript, React.js
- **Backend Development:** Node.js, Express.js, REST APIs
- **Database Technologies:** MongoDB, MySQL
- **Tools & Platforms:** Git, GitHub, VS Code, Android Studio

Technical Projects

Ram Railways – Train Ticket Reservation System

Technologies: Node.js, Express.js, MongoDB, HTML, CSS, JavaScript

- Developed a full-stack train ticket reservation application with user authentication and end-to-end ticket booking workflows.
- Designed and implemented RESTful APIs and MongoDB data models for train search, booking, and passenger management.
- Integrated frontend and backend components to support dynamic booking operations and application workflows.
- Implemented automated email notifications and responsive UI components for consistent usability across devices.
- Managed project source code using Git/GitHub and deployed the application for public access.

AI Powered Resume & Job Description Analyzer

Technologies: JavaScript, React.js, Node.js, NLP, REST APIs

- Developed an ATS-style web application to analyze resumes against job descriptions using NLP and keyword-extraction techn
- Built RESTful APIs for resume processing, job-description analysis, and automated keyword matching.
- Implemented resume-job compatibility analysis to identify relevant skills and keywords from both inputs.
- Developed the application across frontend and backend components, covering application architecture, API integration, and deployment.

Internship

Full Stack Developer Intern — Futurik Technologies, Madurai (June 2024 – July 2024)

- Contributed to the development of frontend and backend modules for a Train Ticket Reservation System using Node.js and MySQL.
- Implemented database integration and dynamic functionality to support ticket booking operations.
- Worked on frontend-backend integration and responsive UI development for web application workflows.
- Participated in application testing and debugging within an Agile development environment.

Education

B.E.–Computer Science and Engineering

CGPA – 6.75/10 (2022 - 2026)

Velammal College of Engineering and Technology, Madurai.

Certifications

- Advanced Diploma in Java Programming – CSC Computer Center - 2024
- Full Stack Developer Internship Certificate – Futurik Technologies – 2024
